Implementation date:

Motion: That Education Council approves the course revision: AVIA 105 Aviation Language Proficiency as recommended by the CPRC – BUS:

AVIA 105 – 3 – 3

Aviation Language Proficiency

Course revision:

Title – new title – Professional Aviation Radio Communications and Theory

Calendar description

Content

Rationale:

Motion: That Education Council approves the course revision: AVI

Proposed:

Please note, students entering the September intake must have their Private Pilot's License. Those entering the program in January do not require their Private Pilot's License until September. This admission requirement can be satisfied by taking the required private pilot's training courses and labs (AVIA 104, 105, 106, 107).

The Commercial Aviation Diploma (CAD) program is for individuals who are interested in pursuing a career in commercial aviation. The program provides students with university-level business competencies as well as Transport Canada commercial aviation licensing requirements. Graduates are qualified to be employed as pilots with charter companies, regional carriers and private corporations, and upon attaining sufficient flying hours, will also have job opportunities with major airline companies. Graduates may also find employment in other aviation-related careers.

The Commercial Aviation diploma program consists of two distinct and separate areas of study - aviation and flight training courses, and university-level academic courses. The flight training is taught at the Southern Interior Flight Centre facility located at the Kelowna International Airport and consists of Transport Canada-prescribed flight training, simulator training, aviation theory and exams. The academic portion of the program is completed at Okanagan College and consists of eight 3-credit courses taken as part of this program.

The Commercial Aviation program is made available through a co-operative partnership between Okanagan College and the Southern Interior Flight Centre (1993) Ltd. The academic portion offered by Okanagan College is subject to normal Okanagan College regulations and tuition fees. The aviation and flight training portion is offered by Southern Interior Flight Centre and is not subject to Okanagan College control and regulations, although all tuition fees for academic courses and flight training are paid to Okanagan College. Okanagan College will maintain records of the student's flight training achievements as provided by Southern Interior Flight Centre on the official Okanagan College transcript.

Fees (subject to change): Students without an approved Canadian Private Pilot's Licence can expect to pay an additional fee. Tuition fees for the flying portion are dependent upon the number of hours required to complete the flying and training requirements. These hours will vary according to the skill level of individual students. Please note that students who book an aircraft, simulator or instructor are responsible for related charges and cancellation penalties will apply.

Student Dress and Survival Equipment: Students will be required to wear the prescribed clothing for commercial
